- Ticket Booking App System Design

Profile Summary

Dedicated Full Stack Developer with over 1.5 years of hands-on experience designing and delivering end-to-end web and backend solutions. Skilled in React.js, Node.js, Express, Python, MongoDB, PostgreSQL, Docker and modern web technologies. Proven track record of building enterprise applications such as Sales Connect — implementing RBAC, analytics dashboards, invoice and credit management — which improved reporting speed and reduced manual operational effort by ~80%. Strong at translating business requirements into scalable, secure systems and collaborating with stakeholders to drive measurable operational improvements.

Work Experience

Fullstack Developer
GroNext Future Private Limited
05/2025 - Present

- Led development and enhancement of Sales Connect, an enterprise sales and credit management platform for sales operations.
- Designed and developed a centralized Admin Dashboard for managing users, customers, invoices, payments, and operational activities.
